

End Game Boss - Design Document

Overview

The boss consists of four phases, each introducing new mechanics and escalating the challenge.

Phase 1

HP 100%. Base stats.

Attacks: Punches 80% ATK, Beam 120% ATK, Sphere 135% ATK, Swords 150% ATK.

Purpose: teach the player the boss patterns.

Transition 1

At 0 HP: Full HP restore, ATK +15%, DEF -10%.

Phase 2

Attacks: Beam 120%, Sphere 135%, Swords 150%, Black Hole 200%. Punches removed.

Transition 2

At 50% HP: enters Phase 3.

Phase 3 - Dual Form

Changes element every 2 turns.

Dark Form: Scythe 150%, Sphere 180%, Meditation (0% ATK, Damage Reduction +60% for 1 turn and counterattack if hit).

Light Form: Scythe 120%, Sphere 140%, Meditation (0% ATK, Damage Reduction +100% for 1 turn and heals 33% of prevented incoming damage).

Transition 3

At 0 HP: transforms into Galactic Wolf and restores to 100% HP.

Phase 4 - Galactic Wolf

Charges for 5 turns without attacking. After charging uses Devour the Stars: 500% ATK, heals 15% of damage dealt, gains permanent Damage Reduction +15% (stacking, suggested cap 75-80%). Then repeats the charge cycle until defeated.

Victory

When the Galactic Wolf reaches 0 HP, the fight ends.
